1 Introduction

NAMO Coin is a decentralized meme token built on the BNB Smart Chain, designed to embody India's patriotic spirit while supporting the Indian Armed Forces and war-affected families. With a total supply of 1,428,627,663 tokens—symbolizing India's population and the "One Person = One Coin" narrative—NAMO Coin combines deflationary tokenomics, charitable impact, and community governance to create a movement powered by purpose. By leveraging blockchain technology, NAMO Coin ensures transparency, security, and real-world impact through automated donations to trusted NGOs.

2 Problem Statement

The cryptocurrency space lacks projects that combine cultural pride with tangible social good. Many meme tokens prioritize speculation over purpose, and charitable initiatives often suffer from opaque fund allocation. NAMO Coin addresses these gaps by:

- Creating a community-driven token rooted in India's patriotic identity.
- Providing transparent, on-chain funding for NGOs supporting the Indian Armed Forces and war-affected families.
- Building a sustainable ecosystem with deflationary mechanics and governance.

3 The NAMO Coin Solution

NAMO Coin is a BEP-20 token that integrates a meme-based NFT marketplace, automated charitable contributions, and a DAO for community governance. Key features include:

- **Deflationary Tokenomics:** A 10% burn on every transaction reduces supply over time, increasing scarcity.
- **Charitable Impact:** 40% of transaction fees are routed to multi-signature wallets for Army and war-relief NGOs.
- **NFT Marketplace:** Meme-themed NFTs, minted and traded in \$NAMO, with proceeds supporting NGOs and artists.
- **Community Governance:** A DAO enables token holders to vote on project milestones and fund allocation.
- **Transparency:** All transactions and NGO wallets are verifiable on-chain via BSCScan.

4 Tokenomics

4.1 Token Specifications

Parameter	Value
Name	NAMO Coin
Symbol	\$NAMO
Total Supply	1,428,627,663 NAMO
Decimals	18
Blockchain	BNB Smart Chain
Token Standard	BEP-20

Table 1: NAMO Coin Specifications

4.2 Initial Allocation

The total supply of 1,428,627,663 NAMO tokens is allocated as follows:

Category	%	Tokens	Purpose and Vesting
Public Sale & DEX Liquidity	25%	357,156,916	Fair-launch sale; 50% permanently locked, 50% relocked every 12 months for 4 years.
Liquidity Pool	15%	214,294,149	Locked for 12 months, released in quarterly tranches.
Creators & Core Team	20%	285,725,533	6-month cliff, 24-month linear vesting.
DeshChain Development Fund	15%	214,294,149	20% at TGE, 10% per milestone via DAO vote.
NFT, Staking & Rewards	10%	142,862,766	2-year emissions for community incentives.
DAO Governance Treasury	5%	71,431,384	No unlock; requires DAO vote for spending.
Initial Burn	10%	142,862,766	Permanent burn at TGE.

Table 2: Initial Token Allocation

4.3 Transaction Tax Model

Every transaction incurs a 33% tax, allocated as follows:

4.4 Deflationary Mechanics

A 10% burn on every transaction ensures continuous supply reduction, tracked via a public dashboard. No additional minting is permitted post-launch.

Allocation	%	Purpose
Burn	10%	Permanent supply reduction.
Army Wallet (NGO)	20%	Supports Indian Armed Forces NGOs.
War Relief Wallet (NGO)	20%	Aids war-affected families.
Creator Wallet	40%	Funds development and operations.
Platform Revenue Wallet	10%	Supports hosting and maintenance.

Table 3: Transaction Tax Allocation

5 NFT Marketplace

The NAMO Coin NFT marketplace enables users to mint and trade meme-themed NFTs using \$NAMO. Key features include:

- **IPFS Storage:** NFT metadata is pinned to IPFS for decentralization.
- **Revenue Split:** Minting and trading proceeds are split: 50% to Army NGOs, 30% to War Relief NGOs, 20% to an Artist DAO.
- **Wallet Integration:** Supports MetaMask and WalletConnect.
- **Transparency:** All transactions are verifiable on-chain.

6 Technical Architecture

NAMO Coin is built on the BNB Smart Chain using the BEP-20 standard. The architecture includes:

- **Smart Contracts:** Developed with Solidity and OpenZeppelin, including token, NFT, and routing logic.
- **NFT System:** ERC-721 standard for meme-based NFTs, hosted on IPFS via NFT.Storage or Pinata.
- **Web Dashboard:** Built with React, Tailwind, and Web3.js, offering token analytics, NGO wallet tracking, and DAO voting.
- **Security:** Multi-signature wallets (Gnosis Safe), audited contracts (CertiK/SolidProof), and locked liquidity.

7 Roadmap

8 Security and Compliance

NAMO Coin prioritizes security and transparency through:

Phase	Milestone
Phase 1	Smart contract development and audit.
Phase 2	Presale launch on Pinksale/DEX.
Phase 3	NFT Marketplace MVP launch.
Phase 4	NGO wallet deployment and donation flow activation.
Phase 5	DAO launch with community voting.
Phase 6	R&D for DeshChain and ecosystem expansion.

Table 4: Project Roadmap

- **Audited Contracts:** Verified by CertiK or SolidProof.
- **Liquidity Lock:** 12+ months via Unicrypt.
- **Multi-Signature Wallets:** NGO funds secured with Gnosis Safe.
- **Legal Compliance:** Symbolic, patriotic branding avoids direct references to individuals.
- **Transparency:** Public wallet addresses and transaction tracking via BSC-Scan.

9 Team

The NAMO Coin team comprises experienced developers, blockchain experts, and community leaders passionate about India's patriotic spirit and social impact. Detailed team profiles will be published on the official website.

10 Legal Disclaimer

NAMO Coin is a decentralized project and does not guarantee financial returns. Participants should conduct their own research and consider risks. The project complies with applicable regulations and ensures transparency in fund allocation. For more details, visit <https://namo-coin.org>.

11 Conclusion

NAMO Coin is more than a meme token—it's a movement to unite India's patriotic spirit with blockchain innovation. By supporting the Indian Armed Forces, aiding war-affected families, and fostering a transparent, community-driven ecosystem, NAMO Coin paves the way for a future DeshChain, India's native blockchain. Join us in this journey of purpose and impact.
